Flight Information

The accuracy and currency of information contained in this guide is uncertain due to the difficulty in obtaining the information and the rapidly changing environment. Aviators should always check with a country's aviation authority or a local aviation handler to determine any specific aircraft airworthiness/equipment and crew/passenger entry requirements.

Airports of Entry

LCLK	Larnaka International
LCPH	Pafos International

Entry/Exit Requirements

Entry and exit requirements are for aircraft departing the United States non-stop to country of destination. These requirements do not include any technical stops. Please refer to **Technical Stop** section in **Additional Information** for the country at which the technical stop will be made.

Entry Requirements (Departing the U.S.)

- File an [eAPIS](#) manifest outbound (recommend inbound at this time, too)
- File and activate international flight plan
- Land at a designated airport of entry (AOE) – customs and immigration

The following entry documents are required:

Passengers –

- Valid passport
- [Visa](#). No visa is required for a stay of up to 90 days

Pilots –

- Valid passport
- [Visa](#). If a crew member has an identity card with photo given by the Aviation Authority of his/her native country, no passport or visa is required when entering or departing Cyprus on his/her normal duty as a crew member.

Note: Other pilot/crewmember requirements may be applicable in lieu of those stated. Contact appropriate AIS for further clarification prior to flight.

Aircraft –

- 6 General Declarations
- 1 copy of Cargo Manifest even if no cargo carried (5 copies if cargo is carried)

Exit Requirements (Departing Cyprus)

- Depart from an AOE
- 6 copies of General Declaration
- 4 copies of Cargo Manifest
- File [eAPIS](#) manifest if inbound to the U.S.
- File an international flight plan
- Call U.S. Customs at filed U.S. airport of entry

Additional Flight Information

Aircraft Instruments and Equipment

U.S. airworthiness and certification requirements may not meet other country requirements. It is the responsibility of the pilot to determine if the aircraft meets those requirements.

The items listed below are for the pilot's reference to determine if the aircraft meets the minimum instrument and equipment requirements, of the destination country. Additional equipment may be required to comply with the airspace navigation requirements.

Commercial air transport aircraft operating in the Republic of Cyprus must adhere to the provisions of ICAO Annex 6 – Operations of Aircraft, Part I – International Commercial Air Transport – Aeroplanes, Chapter 6 (Aeroplane Instruments, Equipment and Flight Documents), and Chapter 7 (Aeroplane Communication and Navigation Equipment).

- SSR transponder
- The carriage and operation of 8.33 KHz channel spacing carriage radio equipment is mandatory throughout the ICAO EUR Region for aircraft operating above FL 195.
- An aircraft operating within the controlled airspace of Cyprus FIR/UIR on or above FL 290, shall be equipped with, as a minimum, RNAV equipment meeting RNP 5
- General Aviation aircraft operating in controlled airspace shall be equipped with a pressure altitude reporting transponder.
- All turbine-Powered aircraft and either having a maximum take-off weight exceeding 5700 kg or a maximum approved passenger seating configuration of more than 19 passengers are to be fitted with, and operate, TCAS II software Version 7.0 (RTCA DO-185A) with Mode S transponder.
- All Turbine or piston engine aircraft of a maximum certificated take-off mass in excess of 5.700 kg or authorized to carry more than nine (9) passengers shall be equipped with ground proximity warning system (GPWS).

- All aircraft, other than ultra lights, gliders, motor gliders, hot air balloons and airships, shall be equipped with emergency locator transmitter (ETL) operating on 406 MHz.

Exceptions to the above requirements may be obtained from the Cyprus Department of Civil Aviation.

ICAO Documents can be purchased from ICAO at: <http://store1.icao.int/>

RVSM

[Domestic and International RVSM](#) guidance is provided on the IFIM Home Page. Click on the **Air Traffic** tab and select **Separation Standards** from the drop down list.

Technical Stop / Overflight

Non-scheduled Commercial flights intending to overfly or make a non-traffic stop (Technical Stop) must obtain prior permission.

The IFIM staff is not aware of any restrictions or requirements for Technical Stop/Overflight of private aircraft.

Non-scheduled Flights (Charters)

Aircraft operators who intend to perform non-scheduled flights into the Republic of Cyprus for the purpose of taking on or discharging passengers, cargo or mail, shall apply to the Air Transport Licensing Authority, through the Director of Civil Aviation for the permission to carry out such operations not less than 15 days in advance of the Intended landing.

Non-scheduled carriers must meet the insurance requirements in Regulations (EC) No. 785/2004 and 285/2010 of the European Parliament.

The airport coordinator or schedules facilitator has to be notified in accordance with the deadlines set by IATA as defined in the IATA Worldwide Scheduling Guidelines on all Arrival and Departure times (in UTC) of all flights to/from the airports in Cyprus;

The slot application for the planned arrival and departure times is required in written form, in IATA SSIM, chapter 6 format by:

SITA: NICSAXH

Email: cyprus-slots@dca.mcw.gov.cy

Further information may obtained at: www.slots-cyprus.eu

Private Flights

International private flights require 72 hrs (three working days) prior permission. Application for permission must be submitted to the Director of Civil Aviation.

The pilot in command of an aircraft carrying out such a flight must, on arrival at or before departure from Larnaka or Pafos International airports, if requested by the Airport Administration (Briefing Officer on duty) must sign a legally binding statement that the flight is a bona fide private flight.

Provided that a valid “Carnet de Passage en Donane” is presented on request to the appropriate authority at the airport, the only documents required on arrival for the clearance is one copy of the General Declaration

Float Planes

The IFIM Staff is not aware of any Float Plane requirements or restrictions.

Light Sport Aircraft

The IFIM Staff is not aware of any Light Sport Aircraft requirements or restrictions.

Fees

Landing Charges – based on MTOW
Parking Charges
Passenger Service Charge
Landing Permit (Charter flights only)
Route Air Navigation Service Charge – Based on aircraft weight

All charges and fees can be obtained from the Airport Operator web page:
<http://www.hermesairports.com>

Fuel

Jet A1 and AvGas are available at both Larnaka and Pafos International Airports.

Night VFR

VFR flights are not permitted in Cyprus airspace at night unless authorized by ATC.

Island Hopping

The IFIM Staff is not aware of any Island Hopping requirements or restrictions.

Aeronautical Charts

Charts can be provided by:

U.S. Prohibitions, Restrictions and Notices

U.S. Prohibitions, Restrictions and Notices may be found on the IFIM main page under General Information. Click [HERE](#) to open.

Country Specific Travel Information

Public Health Requirements

Aircraft – Aircraft arriving from the region of yellow fever, plague, dengue, malaria may land at any international aerodrome in Cyprus provided that the aircraft has been disinfected approximately thirty (30) minutes before arrival at the aerodrome. This action must be properly recorded in the Health Section of the General Declaration. The insecticide to be used has to correspond to the WHO assessment criteria. If, in special circumstances, a second spraying of the aircraft to be carried out on the ground is deemed necessary by public health authority, passengers and crew are permitted to disembark beforehand.

Pilots should refer to the DOT website below for any current requirements.

DOT: [Aircraft Disinsection Requirements](#)

Passengers – Disembarking passengers are not required to present vaccination certificates except when coming directly from an area infected with cholera, yellow fever or typhoid fever.

Please refer to the Center for Disease Control and the World Health Organization websites below for any current requirements.
